

1. Presentation to the Wiltshire Cabinet in Salisbury

After a very long delay and several chasings up, we finally received a sort-of reply to the presentation we gave to the Wiltshire Cabinet when they met in Salisbury.

Despite the Chair of the Council (J Scott) and the Transport & Traffic Councillor (J Thomson) stating that they would look carefully at our proposals (concerning the £m16 spent on dealing with Wiltshire RTCs) and get back to us, they never did. The final comment was very dismissive and did not represent what they said they'd do.

This was very disappointing.

2. Atworth's Narrow Pavements

Our report on Atworth's narrow pavements went to the CATG a few meetings ago. There was no support for tackling this issue.

3. ATAG's Future

*ATAG needs an injection of fresh blood! If anyone is willing to join the Organising Committee, and is willing to chair the group in the face of lack of support from those in the County Council who could change things if they could be so persuaded, please email atag@email.com . The website is still at **atag.16mb.com** .*
