

Atworth Community Speedwatch

Atworth Parish Council Annual Assembly 2017

We were not able to carry out as many sessions last year as previously, at least partly due to the reduced size of our team (4)

Traffic volumes were down a little as were the number speeding

Support from our NPT officers was much reduced

Friendly waves from the public exceed the number of abusive motorists

A few statistics for the year:

		Average	Maximum
Sessions carried out during the year	16 (23)		
Vehicles exceeding limit (35mph)	297 (612)	21 (27)	44 (50)
Vehicles excessively speeding (45mph)	42 (108)	3 (5)	7 (13)
Total vehicles counted	8626 (15568)	616 (677)	799 (846)

Previous year's figures in brackets

(Vehicles recorded for exceeding speed limit of 30mph +10% + 2 = 35, excessive 30 + 50% = 45mph)

Early indications for this year show a slight decrease in traffic volumes, with a similar proportion speeding but an increased proportion of excessively speeding vehicles
